We are seeking a **Loss Control Engineer** for our **Global Risk Solutions** team. Global Risk Solutions offers comprehensive multi-line capabilities targeted at select industry verticals. Servicing middle market and large accounts domiciled in the U.S., we work through a network of retail brokers who share our commitment to long-term partnerships built on white glove service. Position will be preferably in the **State of Florida**.

The Loss Control Engineer will provide risk improvement consultation to large and middle market commercial customers in our targeted industry verticals (real estate, hospitality, financial institutions, and professional services) and provide added value to our clients. The focus of this position is to evaluate the processes in place, conduct on-site visits of existing and prospective clients and aid the underwriters in the selection and pricing of an account. The Loss Control Engineer will also be responsible to track trends at an account and book level and communicate effectively with our clients and brokers. Candidate must have proficiency in property and casualty loss control skills, with an emphasis on Property, General Liability, and Worker's Compensation.

**Duties and Responsibilities:**

- Prioritization and evaluation of new and renewal work volumes to meet the goals of the department;
- Candidate should possess a comprehensive understanding of the following areas: property construction protection and exposures, business interruption exposures and controls, general liability exposures and controls, and workers' compensation;
- Ability to create client facing reports and/or loss control surveys;
- Conduct loss control surveys at client locations to determine potential hazards and risk factors to be considered in underwriting/risk selection;
- Analyze loss trends, recognize opportunities to provide risk control products and/or services which can help reduce losses.
- Attend client/broker meetings, lunches, dinners and other social outings as applicable;
- Expand existing relationships and new prospective clients;
- Ensures compliance with all regulations and keeps abreast of any changes to laws and regulations which pertain to loss control;

- Explore and develop new technologies for delivering loss control services;
- Designs, develops, organizes and conducts training and staff development programs for internal and external customers; and
- Responsibilities may include the production of thought leadership articles or creation of LC library resources; and
- Ability to be a team player.

#### **Qualifications**

- Undergraduate degree. Possessing relevant professional designations or certifications such as CSP or ARM is highly desirable.
- At least 7 years of loss control experience.
- Bilingual abilities preferred; Excellent verbal and written communication skills required in English and Spanish
- Established relationships with retail producers.
- Proficiency in Microsoft Office Suite (Excel, Word and PowerPoint).
- Ability to plan strategically and prioritize workload to meet production and management objectives.

Endurance offers a competitive compensation and benefits package commensurate with experience. For immediate consideration; please e-mail your resume as a Word document along with salary history/requirements to: [mconnors@enduranceservices.com](mailto:mconnors@enduranceservices.com)
