Agriculture

Endurance Re's experienced Agriculture team specializes in developing innovative risk transfer solutions for sophisticated and rapidly changing crop and livestock perils. We employ comprehensive quantitative modelling techniques to develop cutting edge products and covers that address our clients' challenges including climate variability, volatile crop prices and an expanding list of livestock diseases. Our dedication, agility and long term relationships have allowed us to build a strong reputation throughout the worldwide marketplace.

Aviation & Space

Endurance Re has offered reinsurance for Aviation and Space risks since 2002. We provide a broad range of proportional and non-proportional treaty protection across all aviation lines including coverage for airlines, manufacturers, airport operators, general aviation and space risks. Our extensive database of historical aviation and space claims and program structures, coupled with our specialized industry knowledge and claims handling expertise, enables us to provide our clients with customized risk management solutions.

Engineering

Our highly skilled Engineering underwriters have over 25 years of reinsurance experience and mechanical engineering backgrounds. We offer all lines of engineering covers and focus on treaty business written on a worldwide basis, partnering with cedants with local, regional and international portfolios. Reinsurance capacity is offered on pro-rata and non-proportional basis and we offer coverage for single project and operational risks.

Marine & Energy

Endurance Re's seasoned Marine & Energy underwriters offer traditional and specialized reinsurance products with a focus on hull, cargo, liability, onshore and offshore energy and other specialized marine lines. We forge long term partnerships through a deep understanding of our clients' needs and working together, provide tailored solutions. We have built a reputation for exceeding expectations based on quick and efficient delivery and the settlement of claims in a timely fashion.
