Our account management approach and exceptional financial strength enable us to offer a broad multi-line capability to underwrite risks across our clients' insurance portfolios around the globe. We are supported by proprietary analytic and modeling tools and databases and the transactional experience of our underwriting, actuarial, legal and claims professionals.

Global Casualty

With dedicated casualty underwriters located in key markets worldwide, our Global Casualty team supports both proportional and non-proportional reinsurance programs across a broad array of coverage segments. In the U.S., we provide reinsurance of general liability, umbrella & excess, workers' compensation and auto liability. Internationally, we also support public and product liability, employers' liability and motor.

Our team has industry-specific expertise across many areas of casualty insurance, allowing us to better understand the challenges facing our clients. This insight coupled with our strong product knowledge enables us to give meaningful support to like-minded clients — those focused on bottom line underwriting profit.

We reinsure both primary and excess casualty insurance portfolios and seek to lead programs and provide significant capacity, working closely with reinsurance brokers to structure and support programs that suit our clients' needs. We focus on companies with a high level of underwriting knowledge and expertise, deep technical pricing capabilities and a strong commitment to claims management.
