Global Reach

We benefit from the global licensing capabilities of our parent company, Sompo Holdings, Inc., which has 45 licensed entities in 32 countries and is one of the largest P&C insurance companies in the Japanese market. In addition to our own broad licensing capabilities, we also underwrite risks in Europe, Australia, Canada and via our Lloyd's syndicate.

Dedicated Claims Professionals

Our dedicated in-house professional lines claims team is comprised of seasoned attorneys with extensive industry and product knowledge gained as both private practitioners and claim professionals. We know that professional liability claims can have significant impact on our insureds' reputational and financial health. In addition to responsive claims handling, we work in partnership with our clients, brokers and underwriters to provide insight into claims trends and emerging risks throughout the account lifecycle.

Multiple Underwriting Platforms

We offer both admitted and non-admitted underwriting options in the U.S., and in Europe we underwrite through our London-based and European subsidiaries as well as through our Lloyd's syndicate, which provides us with access to key insurance markets around the world.

Flexible Policy Forms

Sompo International offers a broad range of insurance coverage options on both a primary and excess basis to public companies, private companies and not-for-profits, tailored to each account's risk profile. Our modular forms offer flexible policy formats, and we also offer manuscript policy forms for complex risks.
