

### **Are you looking for your next opportunity?**

Sompo has a unique opportunity for a **Data Analyst** in our **Internal Audit** team in Sompo International.

Our Internal Audit team is dedicated to delivering comprehensive evaluations of risk management, control, and governance processes within the insurance industry. We focus on ensuring compliance with regulations and company policies, while identifying operational inefficiencies and recommending strategic improvements. This role in the Professional Practices Group is ideal for an energetic individual who is passionate about technology, analytics, digital innovation, and is also dedicated to providing support to a global department.

**Location:** This position will be based out of our **London** office. We strive for collaboration which is why we offer a work environment where our employees thrive and develop long lasting careers.

### **Our business, your impact, our opportunity:**

#### **What you will be doing:**

The primary responsibility of this role is to provide technical support for Internal Audit workflow and management tools, along with delivering data analytics reporting. Specific responsibilities include:

Support of Internal Audit Tools and Applications:

- Provide technical support for key applications such as TeamMate, SharePoint, Shared Drives, Asana, Grammarly, Articulate, and Tempus.
- Manage ongoing enhancements and the rollout of audit tools and applications.
- Oversee access management, including recertifications and verification processes.
- Deliver technical support for the annual and quarterly Audit Risk Assessment and Audit Plan processes.
- Conduct research and deployment of new tools.
- Participate in disaster recovery testing to ensure system resilience.

Data Analytics Responsibilities:

- Execute analytics and reporting projects, under supervision, including requirements gathering, development, validation, and interpretation of results.
- Collaborate with auditors and other stakeholders to identify new opportunities for analytics and visualizations, specifically those that would benefit from being developed into automated and repeatable solutions.
- Communication with Data Analytics team members and their managers to ensure alignment and support.
- Develop and expand Data Analytics capabilities and skills.

#### **What you'll bring:**

- Proficiency in TeamMate or a similar audit workpaper tool.
  - Demonstrated skills with data analytics tools and techniques, such as SQL Server, Alteryx, Python, among others.
  - Experience in data visualization using Power BI or comparable technologies.
  - Strong written and verbal communication skills.
  - Strong attention to detail and strong analytical skills.
- 
- Ability to independently initiate and manage projects with minimal supervision.
  - Proficiency in additional languages is advantageous but not required.

- A minimum of a bachelor's degree in Data Science, Computer Science, Information Technology, Information Systems, Statistics, Applied Mathematics, or a related field.
- A minimum of 2-8 years of relevant experience in data analysis or a technical domain.

### **Our Benefits**

We continuously evaluate and update our benefit programs to ensure that our plans meet the needs of our employees and their dependents. Below are a few highlights of our inclusive benefit programs:

- Expansive Health & Wellness Benefits
- Generous Retirement & Savings Plans
- Global Parental Leave & Adoption Assistance

### **In today's world, what do we stand for?**

We strive to create exceptional value for our clients and shareholders while maintaining Sompo as an attractive place to work. We foster an environment of ongoing, open dialogue between managers and their direct reports, and believe in an organizational environment where everyone belongs. We proudly are a multi-racial, multi-cultural, global enterprise. We reject all forms of racism, bigotry, prejudice and injustice and continue to invest in building out an inclusive and diverse work environment.

### **About Us**
